## How Neuron360™ Works

### 1. Define Your Search

- Use our intuitive query builder to define your search criteria
- Create precise filters across multiple fields like industry, location, and expertise
- Preview results as you refine your search

### 2. Review Results

- See comprehensive result summaries and total counts
- Access detailed contact or company information
- Enrich your existing data with verified insights

### 3. Take Action

- Export your results for further analysis
- Access the API for programmatic integration
- Automate workflows with your existing tools

## The power of skill data

Forget endless scrolling through contact lists and restrictive search terms. Beneath every Neuron360™ search lies our revolutionary skills graph—a dynamic neural network that maps the relationships between technical expertise, business capabilities, and industry knowledge. This means that you can discover hidden talent pools, market trends, and emerging skills before they become obvious.
